

Vikas

Technical Lead | Microsoft Certified: Azure Developer Associate | Azure AI Engineer (AI-102) | AI Fundamentals (AI-900)

Email: vr1574@gmail.com | Phone: +91 9779765625 | LinkedIn: www.linkedin.com/in/vikas-90124017b/

Profile Summary

Full-stack developer with 8.2 years of experience in building components for business and data tiers using C#, .NET, ADO.NET, and Microservices. Proven expertise in n-tier architecture, designing Windows Communication Foundation (WCF) services, and integrating payment orchestration platforms with strict PCI-DSS compliance. Additionally equipped with specialized expertise in Artificial Intelligence, including designing and implementing Microsoft Azure AI Solutions (AI-102) and advanced applied AI methodologies (AI-200). This includes hands-on experience building, deploying, and managing intelligent applications utilizing Azure Cognitive Services, Natural Language Processing (NLP), computer vision, generative AI integrations, and the utilization of custom AI agents to automate and optimize complex, context-aware workflows. Highly experienced with Agile methodologies across all phases of the software development life cycle (SDLC) to deliver efficient business solutions. Adept at handling diverse domains including Release Ticket Management, E-commerce, Supply Chain Management and Car Rental Reservation Systems.

Core Competencies & Technical Skills

Category	Technologies
Artificial Intelligence	Azure Cognitive Services, Generative AI, NLP, Computer Vision, Custom Agents, GHCP (GitHub Copilot), MCP (Model Context Protocol) Server.
Languages & Web	C#, C/C++, Core Java, Python, TypeScript, HTML, CSS, JavaScript, jQuery, JSON, AJAX.
Frameworks	.NET Framework (4.5 - 6), ASP.NET MVC, .NET Core 8 and 10, Blazor, React JS, Angular JS, Bootstrap 5.
Cloud & Architecture	Microservices, Microsoft Azure Cloud Services, Azure Functions, Logic Apps, Service Bus, WCF, Web API (OData), Microsoft Foundry.
Databases	MS SQL (2008), Entity Framework, Dapper, LINQ, ADO.NET, PL/SQL.
Tools & Platforms	Visual Studio, VS Code, SSMS, Postman, Azure DevOps, Jira, Confluence, GitHub, Android Studio.

Professional Experience

Technical Lead | Infosys Limited | Mohali

2023 – Present

- Led and mentored a cross-functional team of .NET developers, driving technical excellence through regular code reviews, defining coding standards, and establishing architectural best practices.
- Actively involved in talent acquisition, conducting technical interviews and evaluating new hires for the Infosys RCLADM unit to build a high-performing engineering team.
- Spearheaded technical strategy and architectural decision-making, translating complex business requirements into scalable, enterprise-grade cloud solutions.
- Orchestrated Agile/Scrum delivery cadences, taking ownership of sprint execution, managing cross-team dependencies, and ensuring alignment with core stakeholder objectives.
- Designed and developed robust microservices and Web APIs using C# to build highly scalable backend features.

- Architected and implemented end-to-end (E2E) integrations with external systems leveraging comprehensive Azure Solutions.
- Streamlined cloud infrastructure provisioning and CI/CD deployment pipelines utilizing Azure DevOps, Infrastructure as Code (IaC), and Bicep templates.
- Engineered payment orchestration platform middleware to successfully enable multiple PSPs under strict PCI DSS compliance.
- Led defect tracking, root cause analysis, and the rapid resolution of complex production incident problems to ensure zero-downtime operations.

Senior Software Engineer | Volvsoft India Private Limited | Mohali

Oct 2022 – Dec 2022

- Produced clean and efficient code for new tools and applications while conducting rigorous testing and debugging.
- Collaborated with peers during the entire SDLC process to ensure the timely delivery of release cycles.
- Handled comprehensive documentation of development phases, monitored systems, and provided direct client support operations.
- Analyzed business requirements for application enhancements and oversaw detailed status reporting.

Senior Software Developer | Berggruen Car Rental Private Limited | New Delhi

Nov 2021 – Oct 2022

- Enhanced and maintained over 3 targeted .NET sites while successfully eliminating code bugs across three team projects.
- Integrated critical payment gateways using APIs (Bill Desk, Razorpay) and automated payment processes.
- Implemented COFT tokenized payments and E-Mandate setups into the existing system framework.
- Designed and published Windows Services and WCF services to facilitate communication between third-party applications.

Senior Embedded Engineer | Montech Instruments | Chandigarh

May 2021 – Oct 2021

- Executed analog design using OPAMPs and developed printed circuit boards utilizing Altium Designer.
- Conducted vital R&D on applications for On-Board EV Chargers and developed capacitance measurement circuits.
- Programmed microcontrollers in Embedded C, spanning PIC, ARM, and AVR architectures.

Senior Embedded Engineer | Mysense Technologies | Mohali

June 2020 – April 2021

- Designed new products and supported the modification of existing projects utilizing STM32, AVR, PIC, and Arduino.
- Created and reviewed layouts, BOMs, and Gerber files, alongside designing comprehensive testing plans.
- Handled project feasibility studies and coordinated directly with vendors for inventory updates.

Project Assistant Level II | CSIR- CSIO | Chandigarh

June 2019 – Mar 2020

- Developed an Android application designated for assessing residual chlorine as a water quality indicator.
- Prototyped systems for the detection of color levels on Colorimetry strips and trained B.Tech trainees.

Software Developer | Berggruen Car Rental Private Limited | New Delhi

Jan 2017 – July 2018

- Developed ASP.NET web forms and managed PAN India technical support for web pages and database queries.
- Tested Android applications specifically designed for Chauffeurs performing duties in the field.

Key Projects

Enterprise Retail & E-Commerce Platform

Client: Global Off-Price Retail Enterprise

Overview: This enterprise-grade retail platform manages high-volume transactions, global inventory synchronization, and distributed order management across international markets.

Responsibilities:

- Designed and developed highly available microservices and backend components to support peak retail loads and seamless data synchronization.
- Architected secure, scalable cloud infrastructure using Azure Services (Functions, Logic Apps, Service Bus) to handle continuous integration with diverse third-party retail and financial systems.
- Orchestrated Agile delivery, managing cross-functional team sprints to ensure the rapid deployment of critical retail features.

Technology Stack: C#, .NET Core, Microservices, Microsoft Azure Cloud Services, Azure Functions, Web API, Entity Framework, SQL Server.

eCommerce B2B & B2C Application

Overview: This comprehensive e-commerce platform manages customer, distributor, and sales portals for streamlined digital operations. It utilizes a microservices architecture integrated with DIS, PSP, and ERP platforms.

Responsibilities:

- Designed and developed highly scalable microservices modules and core platform features.
- Engineered and integrated payment orchestration platform middleware to enable multiple Payment Service Providers (PSPs) while ensuring strict PCI DSS compliance.
- Actively managed production deployments and rapidly resolved complex incident problems to minimize operational downtime.
- Drove sprint execution and fulfilled cross-functional technical responsibilities as a core Scrum team member.

Technology Stack: C#, .NET Core, Microservices, Azure Services, Logic Apps, Azure Functions, Hangfire Jobs, Service Bus, Web APIs, TypeScript, Angular.

Accounts & Release Ticket Management Systems

Overview: An internal enterprise suite comprising two core platforms: an accounting software built in .NET 5 (EF Database First) to manage financial accounts, and a Release Ticket Management system built in ASP.NET Core 6 (EF Code First) inspired by JIRA to track and release production builds.

Responsibilities:

- Built robust RESTful APIs utilizing ASP.NET Web API and OData.
- Maintained seamless cloud deployments and continuous integration pipelines using Microsoft Azure DevOps and App Services.
- Delivered clean, maintainable code through rigorous design, testing, and application support phases.
- Provided vital technical training and onboarding mentorship to incoming .NET developer interns.

Technology Stack: C#, ASP.NET Core, Entity Framework Core, JavaScript, jQuery, HTML/CSS, MS SQL, Azure DevOps, Jira, MVC, .NET Frameworks (4.7-6), Blazor, React JS, Angular JS, LINQ.

Car Rental Reservation System

Overview: A core operational platform developed to comprehensively manage vehicle bookings, fleet maintenance scheduling, and customer interactions. It is fully integrated with internal financial modules for seamless accounting operations.

Responsibilities:

- Designed Web Forms and Windows Communication Foundation (WCF) services to facilitate secure communication between third-party applications.

- Integrated external payment gateways (BillDesk, Razorpay) via APIs and executed COFT tokenized payment implementations.
- Configured E-Mandate setups and engineered robust Web API integrations for existing enterprise systems.

Technology Stack: C#, ASP.NET Web Forms (.NET 4.7), ADO.NET, HTML/CSS/JS, AJAX, MS SQL, WCF, Windows Applications, Web APIs, Windows Services (with Hangfire), Crystal Reports.

Education

Degree	Institution	Year	Performance
M.Tech in ECE	IK Gujral Punjab Technical University, Jalandhar	2018	7.54 CGPA
B.Tech in ECE	IK Gujral Punjab Technical University, Jalandhar	2016	83%
Diploma in ECE	Punjab State Board Technical Education, Chandigarh	2013	73%
10th Standard	Punjab School Education Board, Mohali	2010	62%

Certifications, Patents & Publications

Certifications

- Microsoft Certified: Azure AI Engineer Associate (AI-102)
- Microsoft Certified: Azure AI Fundamentals (AI-900)
- Microsoft Certified: Azure Developer Associate
- Infosys Certified Applied Generative AI Professional
- Infosys Global Agile Developer Certification
- Infosys Certified .NET Microservices Developer Fundamentals
- Infosys Certified Front End Web Developer
- Programming for Everybody (Getting Started with Python) – University of Michigan

Patents & Publications

- Patent: Portable Colorimeter for heavy metal detection in water (Patent No: 366080-001) – Issued June 16, 2022.
- Publication: A Detection of Lung Cancer using Cat Swarm and BFO optimization Method – Published in International Journal of Research in Electronics and Computer Engineering (IJRECE Vol. 6 Issue 4, Oct-Dec 2018).

Awards & Appreciations

- Rise Insta Award – Issued by Infosys Limited (May 2026)
- Quarterly RISE Award – Issued by Infosys Limited (Mar 2025)
- INSTA Award (June 2024)
- DOT TOWNHALL Award (May 2024)
